Dear Resident  
Re: Proposed Youth Facility Collins Park

As a property owner bordering Collins Park, we wish to advise you of a proposal to develop a youth facility within the park.

The Greenhithe Community approached Council requesting a skate facility in the Greenhithe area a number of years ago and the previous North Shore City Council allocated funding for the development.

The project was also identified in the previous North Shore City Council's Youth Facility Plan.

The facility proposed is to be sited on the road frontage of Collins Park and has been designed in an L shape to wrap around the playing fields and not interfere with the playing surface of the Park.

Collins Park has been identified as a suitable park with areas of green space, available good road frontage, visibility and the proposed site is a distance from neighboring properties.

The proposal includes the development of a street skating area, with some additional youth play elements and associated landscaping and is intended to be a local facility catering for local users.

We have attached a concept plan, outlining the proposed design. The skate component will be integrated into the landscape to provide added amenity.

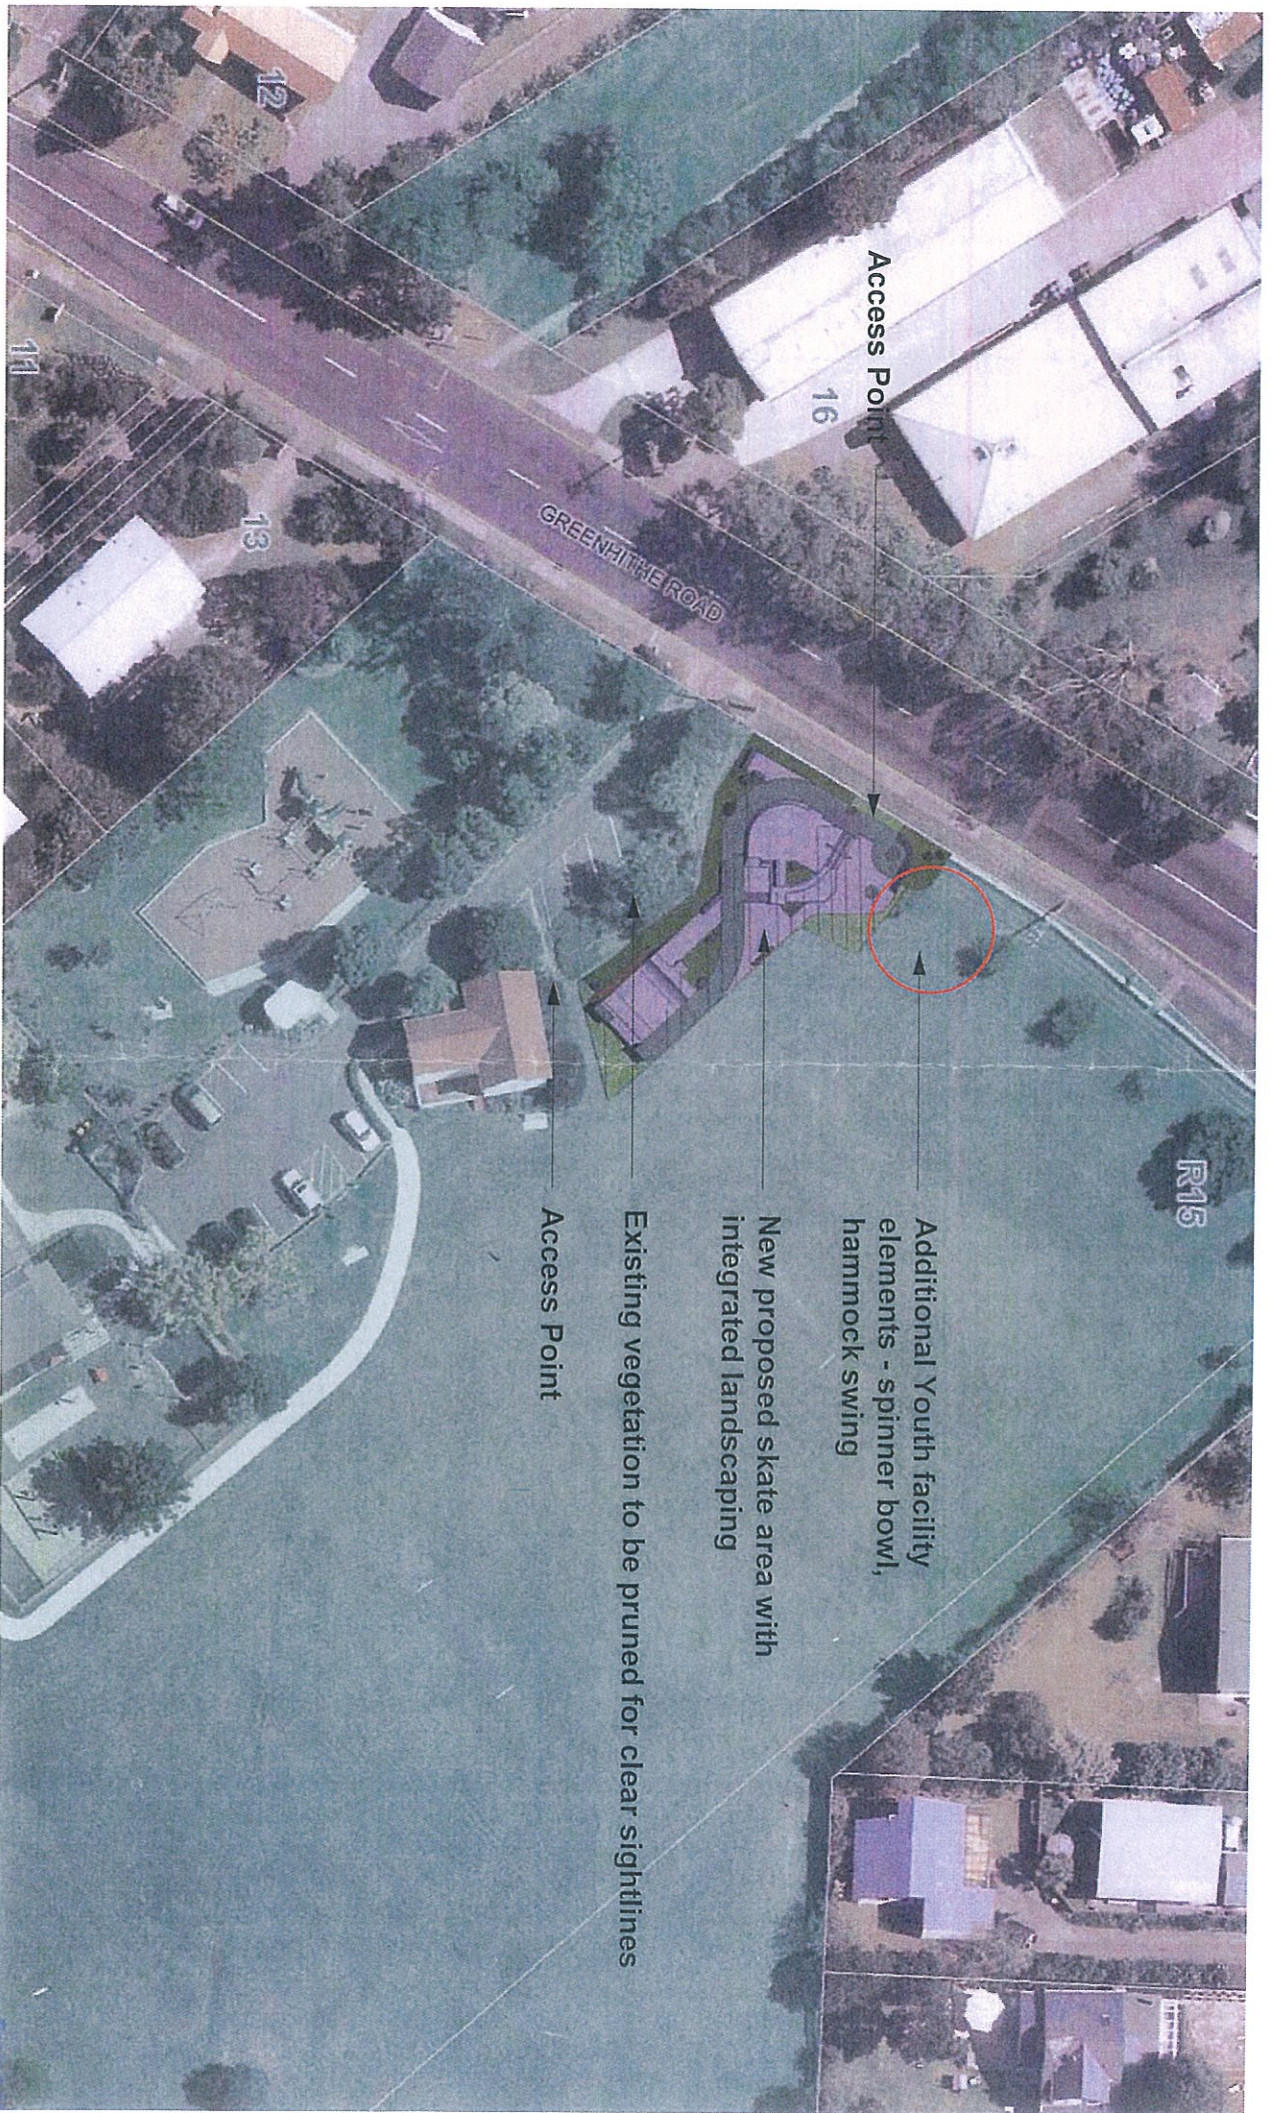

If you would like to comment on the project you are welcome to email Mary Claire Bodmin on [MaryClaire.Bodmin@AucklandCouncil.govt.nz](mailto:MaryClaire.Bodmin@AucklandCouncil.govt.nz).

Due to the Christmas holiday period, Council is happy to receive feedback until 4th February 2011. Information about this project will also be posted on the Greenhithe Website.

It is intended to present the project and community feedback to the Upper Harbour Community Board at the mid February meeting.

Yours sincerely

Mary Claire Bodmin
