

Julia Parfitt – *Your Voice on Council*

Life long ward resident, current councillor and Justice of the Peace, Julia believes planned 9% rate increases are unsustainable. Smarter spending is required.

We need to focus on the essentials: safe, liveable communities, good governance, sound stormwater and wastewater infrastructure, clean beaches, cost effective facilities and frequent and affordable public transport with an efficient transport system that reduces congestion.

We need to plan now for another harbour tunnel and a wharf at Browns Bay, reduce bureaucracy and contain rates and charges, attract quality employment, stop inappropriate development including commercial flights into Whenuapai and protect and purchase vital coastal land for the future, particularly at Long Bay.

Married, with 2 sons, Julia teaches part-time at Northcross Intermediate.

Passionate about the Shore, Julia Parfitt has a successful track record of concentrating on the issues that concern you, and of delivering positive results that add value for all of our community.
