

Changes on Brigham Creek Road

Changes will be in place on Brigham Creek Road from Wednesday 3 February until Friday 19 March. This will allow work to continue on the new Brigham Creek Interchange with SH18.

- Brigham Creek Road will operate as a one-way road for motorists heading from Hobsonville Road to Kumeu.
- Motorists travelling from Kumeu should use Trig Road to reach Hobsonville Road and the North Shore.

There will also be a new road layout on Brigham Creek Road in March. Instead of going straight on the existing road, three new roundabouts will be in place. Please drive slowly as motorists adjust to the new roundabouts which are one after the other. The area is still a construction zone so motorists should also watch out for trucks using the road.

When completed, this interchange will provide access on and off the motorway in all directions and will form the connection between Kumeu and the North Shore via

Brigham Creek Road. The NZ Transport Agency thanks you for your co-operation while this essential work continues.

For more information on the SH18 Hobsonville Deviation and SH16 Brigham Creek Extension project visit www.nzta.govt.nz/projects/upperharbourmotorway or call 0800 520 202.
